About us:

- Our translational laboratory is devoted to combating antibiotic resistance with a long-standing history of training, fostering, and developing successful Postdoctoral Associates for nearly two decades.
- Our Postdoctoral Associates have gone on to obtain outstanding positions in research one institutions in the US, as scientists, as infectious diseases clinicians, and work in top careers at the FDA, and in the pharmaceutical industry.
- The Postdoctoral Associate program is designed to develop academic leaders through intensive training in microbiology, pharmacology, experimental design, and grant submissions to NIH.

*Learn more:*

- Our [benefits](#), where we prioritize your well-being and success to enhance every aspect of your life.
- Being a part of the [University at Buffalo community](#).

University at Buffalo is an affirmative action/equal opportunity employer and, in keeping with our commitment, welcomes all to apply including veterans and individuals with disabilities.

**Minimum Qualifications**

- PhD in relevant film

**Preferred Qualifications**

- A strong background in microbiology
- Previous experience in infectious diseases research focusing on combating bacterial superbugs
